JANOME®

Expand Your Possibilities
Computerized power for
quilting, decor and more

3160QDC & 2160DC

JANOME®

JANOME® 2160DC and 3160QDC

More Room, More Sewing Power, More Ways To Get Things Done

You love to quilt, sew your own home decor, and express your creativity with fabric. You need a machine that makes it effortless and fun. One that gives you top-of-the-line performance and features at a basic-machine price. We made the 2160DC Decor Computer™ and 3160QDC Quilter's Decor Computer™ machines just for you. When creativity is this easy, you'll want to share it with everyone you know.

2160DC Decor Computer™

3160QDC Quilter's Decor Computer™

Powerful Sewing AND Lightweight Carrying

With each stitch you can feel the power and precision of Janome stitch quality. From the thickest quilt to the sheerest curtain, sew without worrying about jamming or missed stitches. Your machine is sturdy but not bulky, so it's easy to take along to classes and clubs.

Go Ahead - Get Creative ... It's Easy!

From big projects with layers of fabric to small projects with extra detail, it all feeds through the machine with ease. An extra-long free arm gives you the ability to sew in tight places. And legendary Janome precision means no puckering or shifting — even when starting from the very edge of your fabric.

Unique Needle Plate Gives You Easy Measuring

An extra-wide needle plate contains important markings for increased accuracy. You get more seam allowance options, plus handy cornering guides and patented angle scale lines.

Choose From 60 Stitches, Including 6 One-Step® Buttonholes

You'll find every stitch you need, from basic quilting to advanced home decor. The large stitch menu on the front of the machine is arranged by essential stitches, hemming stitches, decorative stitches, even heirloom stitches. Plus you get six automatic buttonhole stitches for perfect size and placement every time.

Time Saving Features

Memorized Auto Thread Cutter

Automatically cuts needle and bobbin threads and neatly pulls needle thread to back. Can be programmed with certain stitches. Available on 3160QDC only

One-Hand™ Needle Threader

Pull down lever stays down for effortless threading every time

Adjustable Foot Pressure

Just turn the dial to adjust the presser foot to one of six pressure levels. A great feature to fine tune for fabric weight

Lock Stitch

Anchors your first and last stitch

Superior Plus Feed System™

Only Janome machines have this super stable feeding system that moves your fabric in perfect synchronization with the needle and bobbin. A seven-piece feed dog works with a flat feed mechanism, which keeps the feed dogs parallel to the needle plate whether sewing forwards or backwards. SFS+ available on 3160QDC only. 2160DC has SFS.

Start/Stop Button Let's You Relax On Those Long Seams

Located close to the needle so you don't have to move your hands, the Start/Stop button lets you relax your pedal foot. At the beginning of a seam, simply press and hold to slowly accelerate up to your set speed. At the end, press and hold to slow down and release to stop — a Janome exclusive.

Innovative LCD Screen with Fast Navigation

Handy Arrow Keys take you quickly to your stitch choice and setting options. The large, day glow LCD display makes your stitch number, width and length, and foot recommendation easy to read at a glance. Spend less time scrolling and more time sewing.

Accessories Compartment

Store all your accessories in one easy-to-reach location. Removes to reveal the extra long free arm.
