Beautiful Embroidery

THE B 700 EMBROIDERY ONLY MACHINE

- EXTRA-LARGE EMBROIDERY AREA
- ACCURATE DESIGN POSITIONING
- EASY ACCESS JUMBO BOBBIN
- BERNINA HOOK FOR METICULOUS STITCHES

THE B 700 WITH OUTSTANDING NEW
EMBROIDERY FEATURES

made to create **BERNINA**

Beautiful Embroidery is Simple

The B 700 for embroidery offers even more features and options for embroidery lovers. Design editing allows you to easily position, mirror, rotate, combine and resize motifs. Create curved lettering effects, alter stitch density, combine alphabets with embroidery or create beautiful, endless embroidery designs. Complex combinations can even be resequenced according to colour, and alternative colour options can be reviewed before stitching out. The finished design can be saved directly on the machine or a USB stick.

What's more, additional designs can be imported to the machine via the USB port. And the Check function lets you position the design precisely before embroidering. The remarkable, easy-to-use embroidery module with especially large embroidery area, three hoops, and the multiple spool holder come as standard.

Kazu Huggler, Swiss-Japanese Designer

The daughter of a Japanese mother and Swiss father, Kazu Huggler belongs to a new generation of international couture fashion designers. She runs her studio and fashion label "KAZU" in Zurich, Switzerland. Her creations combine Japanese aesthetics and simplicity with Swiss quality. The embroidery of her bridal fashion collection was created on a BERNINA 700.

"The BERNINA 700 Embroidery lets you embroider designs over a particularly large area, and offers a range of luxury features."

What You'll Love about the B 700 Embroidery

Extra-large Embroidery Area

The extra-large embroidery area gives you a lot of flexibility and comfort when embroidering. With 10 inches to the right of the needle you are able to embroider designs up to 400x210 mm (15.7" x 8.3") in size using the Maxi Hoop which is available as an option. Should your embroidery and designing ambitions grow, the B 700 can be enhanced with embroidery accessories and software.

Total Embroidery Stitch Control

The B 700 Embroidery machine provides an exclusive level of embroidery control for **effortless, fast and immaculate embroidery results**. Personal settings can be saved and retrieved. The B 700 offers new comfort features like the **Thread Away Mode** which is a swift movement of the hoop that pulls the upper thread tails to the underside for clean embroidery results on the top. A big plus is that the **cutting of jump stitches** can be set, subject to design properties. No more manual trimming on the top side needed. Flawless embroidery has never been easier.

More New Embroidery Features

Undo & Redo: Simply undo or redo steps while editing or combining designs to return to your initial position.

Group & Ungroup: Combine designs to edit all at one time with group. Break apart designs to edit individually with ungroup.

Rearrange: Customize the design layer stitch-out sequence. Use rearrange in combination with the group function.

Toggle Between mm & Inches: The embroidery design size and the hoop dimensions can be shown in mm or inches.

Read Multiple Formats: Read most popular file formats: EXP, DST, PES, PEC, JEF, SEW, PCS, XXX.

Thread-up Command

The new **Thread-up Command** function is easily accessible with the direct-select button on the front of the machine. It lowers and raises the needle bringing the bobbin thread to the top of the fabric so you can secure the threads manually.

Invisible & Smart Secure

You'll achieve brilliant embroidery results thanks to the new **Invisible Secure** function which makes the perfected tie-on/off formation completely invisible. The **Smart Secure** function smartly adds tie-on/off stitches to a design if none are pre-programmed. Or, simply turn this function off to keep the original tie-on/off stitch settings of the design.

Pinpoint Placement

Accurately place designs with **Pinpoint Placement**, a great new feature for **easy positioning and alignment**. Simply select two points on the screen, match them with the markings on the hooped fabric, and have the design either aligned, rotated or resized to fit as desired. Have full visibility of the hooped fabric at all times, no additional tools or aids are needed.

The B 700 Embroidery includes an **embroidery module** with extra-large embroidery area (400 x 210 mm, 15.7" x 8.3").

Without programmable jump stitch cutting

With programmable jump stitch cutting

BERNINA Adaptive Thread Tension

The **BERNINA Adaptive Thread Tension**, a BERNINA innovation, provides ideal thread tension while embroidering to achieve perfect stitch quality on both sides of the fabric. Once the tension is set according to the thread and fabric used, BERNINA Adaptive Thread Tension will constantly check the thread tension, adjusting it automatically when needed. The result is the finest stitching without pressing a button.

Help on Demand

The **Embroidery Consultant** and **built-in tutorials** offer direct on-screen support and answers to your questions whenever you need them.

Automatic embroidery hoop recognition
Automatic recognition of the hoop and stitch out area

BERNINA Quality

For decades, BERNINA has been passionately committed to the development of sewing and embroidery machines. Swiss precision is at the heart of our products. High-quality materials guarantee a long product life and high performance.

The BERNINA Hook

The heart of the BERNINA 7 Series features a novel, centrally placed driver, which allows the BERNINA Hook to run fast yet quietly. The patented BERNINA Hook embroiders high-precision stitches with speeds up to 1,000 stitches per minute. The bobbin holds up to 70% more thread than standard bobbins allowing you to embroider longer without interruption.

Finally, the BERNINA Hook is made of high-quality materials that allow the thread to run smoothly at consistent tension.

BERNINA—made to create.

High resolution 7-inch touch screen with brilliant colours and modern user interface

Multi-function knobs
Easy editing and settings

30 bright LED lights

(mm) of space to the needle

Jumbo Bobbin
Embroider with fewer interruptions with the Jumbo Bobbin that holds up to 70% more thread than standard bobbins.
