Pro-Stitcher® *Lite*

Premium Computerized Quilting Software System

Achieve show-level precision and quality with Baby Lock's Pro-Stitcher Lite Quilting Software System. It comes equipped with everything you need to quickly make the switch!
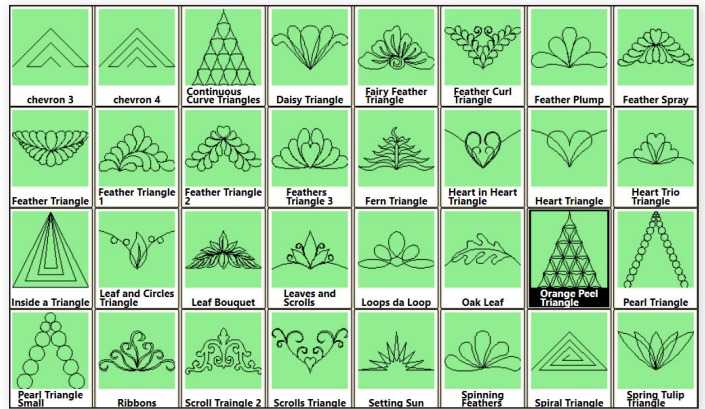

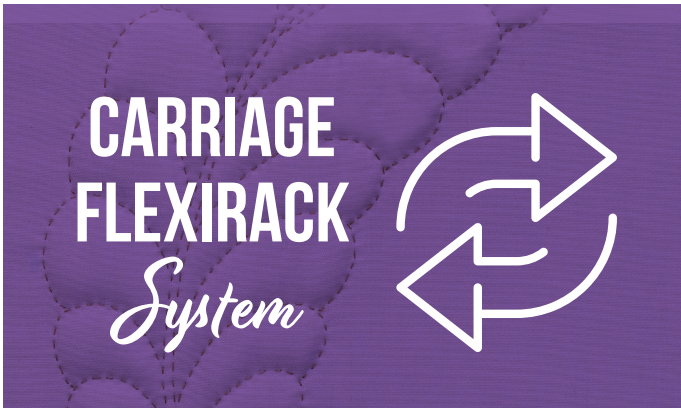

Pro-Stitcher®
Lite

Next Level Quilting at Your Fingertips

Touchscreen Tablet Control

The Pro-Stitcher Lite system operates from a single 11.6" color touchscreen tablet that mounts onto a stitch-regulated quilting machine*, giving you full, real-time control over every inch of your design work. (*Gallant and Coronet models)
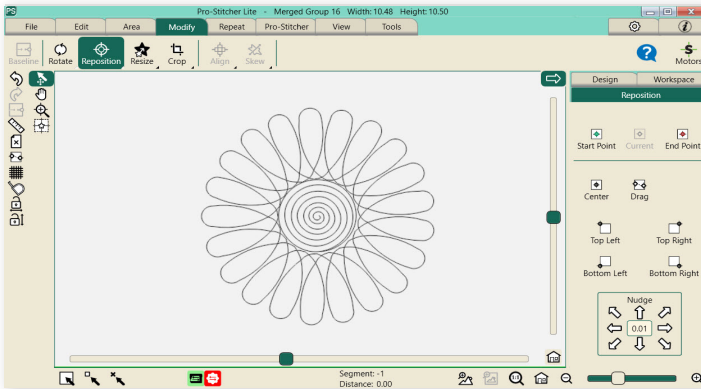

Carriage/Flexirack System

The Carriage/Flexirack System is easy to install and allows motors to disengage for free-motion quilting.

Built-in Designs and Motifs

You'll always have something to stitch, thanks to Pro-Stitcher Lite's selection of 250 built-in designs. Upload additional digital patterns using the tablet's USB port.
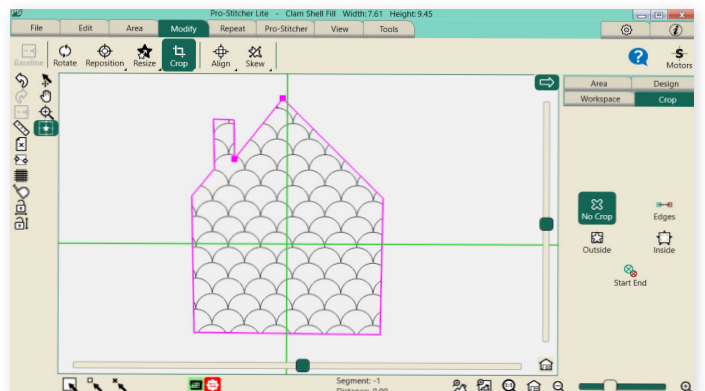

Easily Edit Designs

Pro-Stitcher Lite's designs can be modified to match your vision for your quilt. Make all the necessary adjustments right on the screen with your finger or stylus.

Endless Customization Options

Create quilt designs with various customization options. Choose your borders, stitches, start and stop points, alignment and more — the quilt of your dreams is possible down to the last stitch.

Create Unique Pantograph Designs

Got an idea for a one-of-a-kind pantograph? You're in luck! Pro-Stitcher Lite allows you to repeat and wrap designs in a continuous pattern for an unforgettable finish.

Multi-Point Shapes

Merge, duplicate, crop and fit designs to quilt the most elaborate shapes possible. You're only limited by your imagination.

Features and Specifications

Pro-Stitcher Lite Features

- 11.6" color touchscreen computer mounts onto a stitch-regulated quilting machine
- Entire system operates from a single screen
- Includes more than 250 designs
- Switch between computer-guided and free-motion quilting at the touch of a button
- Resize, rotate and repeat designs to fit specific areas
- Skew or align designs to fit any area with three or more points
- Move designs into position by simply moving your finger across the screen
- Define and fill an area with a design, using two-corner (rectangles) or multi-point (any shape)
- Precisely reposition designs using the center point, start point, end point, any corner of the design area or any point within the design
- Crop inside or outside of your design to fit your quilt, with the option to close the jumps or leave them open
- Create new start/stop points
- Place designs into borders and other odd-shaped spaces
- Customizable speed and stitches-per-inch
- Micro tie-off function
- Ability to read most .hqf, .hqv and .qli digital quilt patterns
- Mark multiple points for accurate stitch-in-the-ditch quilting
- Onscreen grid and ruler to measure designs or area on quilt
- Reorder designs for stitching
- Horizontal and vertical channel lock
- Help menus
