Discover A New Level of Quilting Royalty

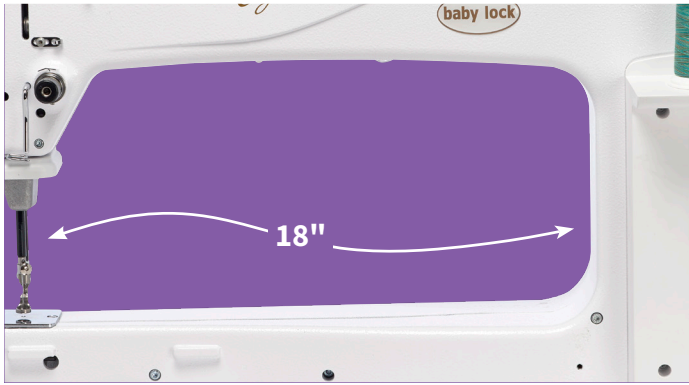

Sensors detect fabric motion speed.

Sensors send a message to the computer to regulate speed of stitches.

Stitch Harmony Stitch Regulation

Enjoy free-motion quilting at a comfortable pace with the Stitch Harmony Stitch Regulation. Built into the Regent's table insert, the automated regulator helps you achieve evenly spaced, consistent stitches every time. This easy-to-use stitch regulation is helpful for quilters of all skill levels.

18" Creative Workspace

With 18" to the right of the needle and an 8.25" high throat space, the Regent gives ample room to finish quilts of all sizes.

Smooth, Adjustable Table

The Regent comes with its own quilting table with Stitch Harmony Stitch Regulation built right in. Laser sensors detect the movement of the fabric across the table surface. Set your preferred height to ensure a comfortable quilting position.

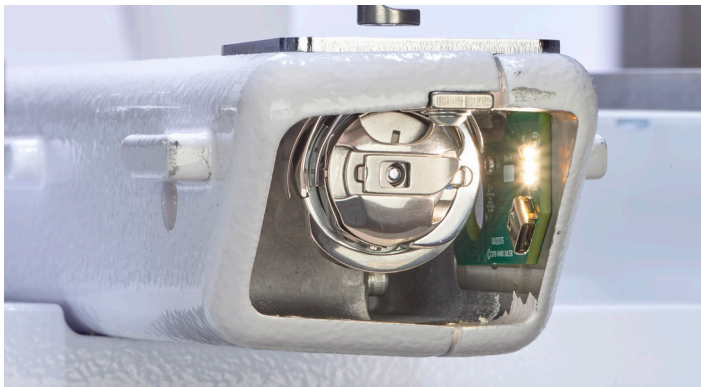

2,200 SPM

Keep a quick and steady tempo of up to 2,200 stitches per minute. Regent is as fast as it is accurate.

User-Friendly Interface

Access your hardware and software options, lighting options, stitch counters and more through the intuitive LCD touch screen.

"M" Class Bobbin

Enjoy fewer bobbin changes with the largest bobbins available in quilting (up to 40% larger than a standard bobbin). It's also lit with an LED that makes changes and alignments easier than ever.

Enhanced Workspace Lighting

Long lasting, high-intensity LED lights illuminate your needle area and workspace so you can see every detail on your quilt.

Features and Specifications of the Regent

Technical Features

- Throat space is 18" wide x 8.25" high
- Stitch Harmony™ built-in stitch regulation
- Lighting: LED adjustable lighting for the needle and quilting area
 - o 28 Integrated high-intensity, natural-color LED lights in a ring illuminating the needle area
 - o Bright LED light in bobbin area
 - o Bright LED light strip illuminating the throat space and quilting area
