# **DX-1500QVP**

Professional Quality Quilting & Sewing Machine Created for quilters, backed with industrial technology

## Thanks to Juki's industrial technology the DX-1500QVP makes it possible to sew and quilt beautifully!

Direct stitch pattern

Frequently used stitch patterns can be

selected directly through the Direct Select

selection

ĀÃ

### **Perfect Stitch Quality**

#### Capability to sew from light to heavy weight materials

No fabric shrinkage even sewing on extra light weight materials.

Thick handle can be sewn with ease

#### Box feed-industrial sewing machine technology

In order to provide beautiful seams and outstanding feed performance, JUKI adopted box feed system. The conventional feed mechanism is oval motion. On the other hand, the box feed moves the feed dog in a box motion. This eliminates material shrinking and shifting. This accurate feeding system provides superior stitch quality for a variety of light to heavy weight fabrics.

#### Free motion sewing with stable thread tensions

### **Knee-lifting lever**

Presser foot can be raised and lowered by the knee-lifting lever. Presser foot lift is up to 12mm when the lever is used.

Automatic needle threader

Needle can be threaded quickly

### For Professional Sewing Results

#### Foot controller with thread trimming function

DX-1500QVP trims both needle and bobbin threads automatically by pressing the heel side of the foot controller. With this feature you can concentrate on your project while automatically cutting the thread

#### It is also possible to trim threads with a button located at

#### Powerful feeding

DX-1500QVP has powerful feeding thanks to a special steel feed dog and improved presser foot construction. Heavy material projects, such as hemming denim jeans, can be sewn

#### Presser foot pressure adjustment

pressure can be adjusted for better sewing results according to the type of materials to be sewn.

#### **Industrial quality** buttonholes

Using a unique sensor method, DX-1500QVP sews beautiful buttonholes regardless of the type of material and overlapped sections.

16 types pf buttonholes are available for your needs

Now it is possible to adjust the cutting width in 3
