

Supply List

Pattern: https://sewhouse7.com/products/moon-booties-sewing-pattern-pdf?_pos=1&_sid=36bf41d51&_ss=r

Please print and assemble pattern pieces prior to class as instructed by manufacturer of the pattern.

Main outer fabric #1 & lining fabric #3 - Light to mid-weight structured fabrics that aren't too stiff such as light-weight canvas, cotton poplin, quilting cotton, flannel, fleece and mid-weight linen.

Reinforcement fabric #2 (Sole & Last) - Sturdy fabrics that hold up to heavy wear such as mid to heavy-weight canvas, twill or denim.

Insulation/ Batting - Hi-loft, wool or cotton quilt batting that is 1/2"-3/4" (13mm-19mm) thick (1/2"/13mm for kids sizes).

Foam inner sole - 3/8"(10mm) thick roll foam (preferably salvaged or upcycled from used packing materials or 3/8"(10mm) thick neoprene foam (peel and stick option is best if purchasing rather than recycling).

Sundries: Polyester thread; 1/4" (6mm) woven elastic; (2) toggles - preferably with one large hole; 1/8" (3mm) elastic shock cording. **Optional sundries:** Temporary peel and stick basting tape or something similar for holding the foam sole in place in lieu of pins; clear liquid puff paint for creating a non-stick surface on the soles; seam sealant "Seam Grip" or "Tenacious Tape" for waterproof fabrics. ***I will have toggles and elastic shock cording available for sale in class.***

Tools: Fabric scissors, paper scissors (for cutting out foam); iron & ironing board; fabric clips work best but straight pins work too; tailor's chalk or fabric pen.

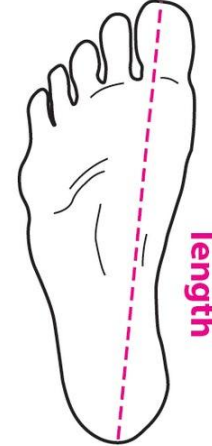

Optional tools: Teflon or walking foot for sewing bulk or coated fabrics; zipper or narrow foot for sewing close to bulky, uneven seams; hump-jumper for sewing next to bulky foam.

Suggested sewing machine needles: A jeans needle size 110/18 or 100/16 for sewing on cordura, canvas and bulky layers; a microtex size 70/10 needle for sewing light-weight fabrics and linings.
