Prior to class, cut out only the squares and rectangles as per the “General Cutting Instructions” and label by size and what the fabric is used for (I recommend starching and pressing fabric well before cutting). Labeling your pieces will help your project go more smoothly. Because you will have precut your pieces, we will get right to learning how to read and use the Curved Mini Ruler. Starting with scrap fabric, we will cut and sew the different required curved pieces and then move on to the “Santa” fabric. The rest of the class will be a time of sewing and I will be there to help you every step of the way; I can't wait to see what you create!*Prints are great, but directional fabrics are not recommended for this project
